

eluminocity GmbH, Karlstraße 96, 80335 München

Press Release
24 October 2016

eluminocity became the youngest member to join the BVMW – The German Association for Small and Medium-sized Businesses.

MUNICH. "We are absolutely delighted to have found such an innovative partner in the eluminocity GmbH with a technologically leading product portfolio", says Wolfgang Thanner, Head of the District Association of the economic region of Munich. "As soon as the initial discussions were underway it became clear that we share common positions and challenges which we will tackle in close collaboration. Electric mobility is an important aspect of the transformation towards sustainable energy systems for all small and medium-sized enterprises. eluminocity can contribute outstanding expertise in Smart City, e-Mobility and charging infrastructure which we can apply in our on-going talks with our members and senior policy makers."

eluminocity developed in cooperation with the BMW Group the modular product system "Light & Charge" to transform street lights into charging stations for electric vehicles. The system retrofits street lights with highly efficient LED lighting combined with an integrated EV charging solution in a fully connected environment. Furthermore, the new product expansion enables companies to offer modern services to their customers, guests or employees through providing electric charging possibilities. "Light & Charge" is already installed in several major cities such as Munich, Chicago, Eindhoven or Starnberg.
