

**eluminocity and Huawei have signed Memorandum of Understanding
to jointly build innovative Smart City solutions**

[Rome, Italy, November 08, 2018] Huawei and eluminocity have signed a Memorandum of Understanding at HCE (Huawei eco-Connect | Europe), marking the beginning of a cooperation for Smart City solutions. Both companies will cooperate with each other to develop innovative Smart City solutions for customers, and promote the common development of cities' economic growth and citizen satisfaction.

Huawei will provide AI, Big Data and cloud computing platforms, which will create a city-based decision-making mechanism driven by public data to allocate and regulate a city's public resources in an integrated manner, with the goal of automatic intelligence to achieve the most efficient operation of the city.

eluminocity will focus on electric car charging stations, intelligent street lighting, and other Smart City sensor technologies. Cooperating with Huawei OceanConnect IoT platform FusionInsight Bigdata and Huawei Cloud both could provide an open, highly efficient and collaborative Smart City experience to customers.

Huawei and eluminocity will build a joint test center to set up and optimize innovative Smart City solutions in Huawei's Munich OpenLab. After that, both companies will carry out a series of go-to-market activities to capture more business opportunities.

eluminocity and Huawei have signed MoU to develop innovative Smart City solutions

Sebastian Jagsch, CEO of eluminocity, commented: “eluminocity is delighted to partner up with Huawei and we are looking forward to realizing our first joint project in Germany. The open solution platform is the perfect base to integrate our technology and provide Smart City solutions on a large scale.”

Wu Mo, Director of Huawei European Solutions Development Centre commented: “Huawei follows the concept of 'Platform + Ecosystem'. Committed to a vision of openness, cooperation, and win-win strategy, Huawei cooperates with global partners to provide customers with innovative solutions. The Huawei-eluminocity cooperation will be dedicated to building intelligent and high efficiency Smart City solution for customers.”

About Huawei

Huawei is a leading global provider of information and communications technology (ICT) infrastructure and smart devices. With integrated solutions across four key domains – telecom networks, IT, smart devices, and cloud services – we are committed to bringing digital to every person, home and organization for a fully connected, intelligent world.

Huawei's end-to-end portfolio of products, solutions and services are both competitive and secure. Through open collaboration with ecosystem partners, we create lasting value for our customers, working to empower people, enrich home life, and inspire innovation in organizations of all shapes and sizes.

At Huawei, innovation focuses on customer needs. We invest heavily in basic research, concentrating on technological breakthroughs that drive the world forward. We have more than 180,000 employees, and we operate in more than 170 countries and regions. Founded in 1987, Huawei is a private company fully owned by its employees.
